"Plant, read, rest, repeat."

FRIDAY, NOVEMBER 13, 2026 LEXINGTON: SHOWERS TILL 1, HIGH 44 · CLEARING TONIGHT, LOW 29

Almanac

Lexington sun & moon computed; church year per RCL

Sun: up 7:16 a.m., down 5:28 p.m. — 10 hr 11 min of daylight, and shrinking about two minutes a day.

Moon: a thin waxing crescent, about 15% lit, low in the southwest after sunset (clouds permitting; Saturday's clear sky is the better bet).

Church year: Season after Pentecost, Year A; Sunday is Proper 28. The Church of England remembers **Charles Simeon** (d. 1836) today, the Cambridge pastor who taught a generation to preach the plain sense of the text.

On this day in Kentucky: Louis Brandeis born, 1856

Louisville-born Louis D. Brandeis grew up to co-write the famous 1890 essay on "the right to privacy," pioneer the fact-heavy "Brandeis brief," and serve on the U.S. Supreme Court from 1916 to 1939.

UK lands $34 million to test and treat Hepatitis C on the spot

The NIH awarded UK's clinical and translational science center nearly $34 million. Part of it funds a pilot called HEAT that will test people for Hepatitis C and start treatment the same day, where they already are, rather than routing them through a chain of blood

draws, labs and referrals where many drop out. Health departments in Breathitt, Knott, Lee and Owsley counties are the first partners; launch is still months away. The grant also trains community health workers and new researchers.

Modern gun deer season opens Saturday

Kentucky's modern gun deer season runs Saturday, Nov. 14, through Nov. 29. Fish & Wildlife officers remind hunters they need a hunting license and a statewide or youth deer permit (up to four deer); shooting hours run from a half hour before sunrise to a half hour after sunset; and hunters *and anyone with them* must wear solid hunter orange on head, back and chest. Expect more activity on back roads and in the woods for two weeks.

U.S. envoys meet Putin after first direct Russia–Ukraine talks in nine months

After two days of U.S.-brokered talks in Abu Dhabi ended with an agreement on a large prisoner exchange, envoys Steve Witkoff and Jared Kushner met Vladimir Putin at the Kremlin for about two hours, then headed to meet President Zelenskyy in Dublin with European leaders. The sticking points remain: Moscow warns against European troops in Ukraine after any ceasefire and repeats its claim to four regions; Kyiv says it won't give up territory. Fighting continues along a front of roughly 750 miles.

The sticker price problem: colleges try "free tuition under $X"

More colleges — Middlebury, Princeton, MIT, Penn, Wake Forest and others — now promise free tuition to families below an income line, often $175,000–$250,000. The catch: housing, food and books usually aren't covered, and few families paid sticker price anyway. A federal-data review found 445 colleges where nobody pays the listed price, yet most families say they've crossed a school off their list over cost. The takeaway: check the *net* price before ruling a school out.

Asbury Theological Seminary

Asbury launches a center for political and public theology

Asbury Seminary in Wilmore announced the Runnels Family Center for Political and Public Theology, funded by a legacy gift from the Runnels family. President David Watson says the Wesleyan tradition has much to offer on human dignity, life, immigration, trafficking, religious liberty and the common good; the seminary describes the center as nonpartisan. Plans include research and white papers, gatherings of scholars, pastors and civic leaders, and future degree programs. Dr. Asa James Swan, a UK-trained historian and former state official, is the first director; full launch is expected in 2027.

Hoops: Cats host Northern Arizona tonight, 7 p.m., SEC Network+

Kentucky (2–1) gets a quick shot at a reset at Rupp after Tuesday's 89–69 loss to No. 15 Kansas in Chicago, where Kansas scored 22 points off turnovers to Kentucky's none. Zoom Diallo had 24 and Malachi Moreno a career-best 19 points and 10 rebounds. **Next:** Grambling State, Mon. 11/16, 7 p.m. (SECN+); Indiana in Indianapolis, Fri. 11/20, 8 p.m. (CBS).

UK Athletics · Nov. 11, 2026

Football: Florida at Kroger Field, Saturday 6:15 p.m., ESPN

Kentucky (7–2, 5–2 SEC) saw its six-game win streak end 34–6 at Tennessee last Saturday; the Vols had eight tackles for loss and forced three turnovers. Kenny Minchey threw for 224 yards and DeSean Bishop ran for 109. Florida visits Saturday night, then it's at Missouri (11/21) and Louisville at home (11/28).

The Creek Report

Ky. Fish & Wildlife · USACE Nashville · Lexington Parks

Fall trout are in. KDFWR's November stockings wrapped up Nov. 12. Nearby: Lake Mingo and Southland Church Lake (Jessamine, 500 each, Oct. 21), Jacobson Park (3,000, Oct. 20), the Horse Park's Rolex Lake (1,500, Nov. 3) and the Dix River below Herrington Dam (900, Nov. 5). The fall fish run about 10 inches.

Cumberland below Wolf Creek: the Corps' schedule shows steady daily totals this week (920 MWh a day, 665 on Saturday). In the schedule, "45" means one unit and "90" two; more than two makes the upper river too high to wade. Low, clear water calls for small nymphs (size 18–20 pheasant tails).

Bass: once creeks drop below 50°, stream smallmouth slow way down and school in pools — one fish often means more. Small lakes can be good for largemouth right into early December; fish the backs of coves where baitfish gather.

Rules: the license year runs through Feb. 28; a trout permit is required for trout. Catch-and-release trout streams are open through March (artificials only).

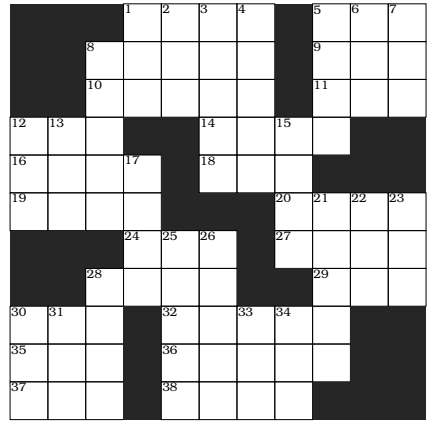

Weekend outdoors: Raven Run, 9–5

Saturday's sun (46°) and Sunday's (49°) make for good walking at Raven Run's 10 miles of trail down to the Kentucky River palisades. Winter hours are 9–5 daily; at busy times the gate closes until parking frees up, so go early. Trails may be muddy after today's showers, and it's deer season: wear something bright on any rural walk.

Seedbed (J. D. Walt) — "When the Conflict Is Not about the Conflict": Romans 14 settles disputes of conscience before the Lord, not by brokered compromise.

Mere Orthodoxy — "A Reformational Anglican Reading List (Pt 1)": a layered reading plan from the Articles and Jewel to Sibbes, Ryle and Simeon.

Mere Orthodoxy — "Being Before Seeing": Annie Dillard's real frontier is the ordinary day in front of us.

Unbelievable? — Did Christians leave traces at Pompeii before AD 79? Bruce Longenecker on the messy material record of early faith.

The Holy Post — Did Christianity "win" the midterms? Plus Sarah Sanderson on a year of praying through politics.

Ryan Holiday — 23 lessons from two decades apprenticed to Robert Greene: slow research, notecards, no shortcuts.

Austin Kleon — From Michael Crichton's therapy to ELIZA: a reading trail about why we credit machines with understanding.

Species of the Day

Mayfly · Blue-winged olive (Baetis)

Know it: a delicate insect that rests with its wings held straight up like a little sail, with two or three long hair-like tails. The fall "blue-winged olives" are tiny — about the size of a grain of rice — with smoky gray wings and an olive body.

How to spot it: on gray, drizzly afternoons like today's, look for small upright "sailboats" drifting on slow creek water and dimples where fish sip them. Turn over a rock in a riffle and you'll find the nymphs: flat, six-legged, with feathery gills along the sides.

Where: riffles of Jessamine Creek and the creeks around Wilmore; the Dix River and Cumberland tailwaters below the dams, where trout key on them all winter.

Fun fact: mayflies are the only insects that molt again *after* they have working wings — a dull "dun" sheds one last skin to become a shiny adult.
